

Morning

PUBLISHED FULL ASSOCIATED PRESS REPORT

Astorian.

COVERS THE MORNING FIELD ON THE LOWER COLUMBIA

VOLUME LVIV. NO. 171

ASTORIA, OREGON, TUESDAY, MAY 2, 1905.

PRICE FIVE CENTS

WARSAW RIOTS

Women and Children Are Among Dead.

DANGER THREATENING

Troops Apparently Unable to Control the Mob and Sympathize With Them.

ALL RUSSIA IS IN A TURMOIL

Several Thousand Workmen Parade the Streets With Red Flags and Are Fired Upon by the Soldiers and Return the Fire, Killing Large Number.

Warsaw, May 1.—Nearly 100 persons were killed or wounded in the disturbances today. The troops are apparently uncontrollable and violated all orders to act with moderation. They fired into a crowd of demonstrators and the workmen in desperation resorted to the use of fire arms and bomb. Many women and children are among the dead and dying. What approaches a reign of terror exists tonight. The city presents a most gloomy aspect and the tenor of the entire community augurs ill.

The presence of numerous patrols of Cossack cavalry and infantry are the only reminder of lurking danger. No outward incident was reported until this afternoon. The first disturbances occurred between one and two o'clock when a procession of several thousand workmen, carrying red flags marched along Zelazna street. The demonstration was quiet and orderly and proceeded without molestation for some distance.

Suddenly several squadrons of Uhlans appeared and took a position along the sidewalks while the workmen passed through the lines. Then the company of infantry approached from the front, and immediately the cavalry charged into the procession, driving it with the flat of their swords into a disorganized mass. When the cavalry withdrew the infantry fired volleys whereupon the demonstrators turned and fled. The infantry continued to discharge volleys into the retreating, shrieking multitude. Thirty-one persons were killed and many wounded and of the latter it is believed 36 will die.

The shooting is denounced as having been quite unprovoked. It aroused the most intense indignation among all classes in Warsaw. Many of those killed or wounded were shot in the back, showing they were running away when struck.

Another terrible scene was enacted at 5 o'clock at the corner of Hlota and Sosnora streets, when the workmen fired from behind a wall at a patrol which immediately opened fire on the passing crowds, killing or wounding 30 persons. The first bomb throwing occurred at 9:40 tonight when a bomb was thrown into the Cossack patrol near the Vienna station. Three Cossacks and one policeman were killed and two women severely wounded. The Cossacks and infantry fired a number of volleys and reported many persons killed or wounded. The troops surrounded the whole neighborhood. It has been impossible up to the present time to secure accurate information as to the casualties of this affair.

At 10:45 o'clock p. m. disturbances broke out at Zorkowska Gate, a suburb of Praga, across the Vistula river. A great crowd assembled there, threatening the troops when Hussars fired upon the crowd and killed four and wounded many others.

Reports from Lodz this afternoon are that the crowd stoned the military patrol, whereupon the soldiers fired and killed two men and a boy. Similar incidents occurred later at Baluki square in Lodz when two persons were killed. In Lodz also tonight, a bomb was thrown at a patrol, but was not effective. The patrol fired into the crowd and killed three and wounded two.

Students who were distributing

proclamations in Wola, suburb of Warsaw, were killed tonight by the patrol. In Nawrot street in Warsaw tonight the patrol killed a woman.

Today's bloodshed is likely to very seriously effect the general situation and may cause a general strike. The temper of the people is at white heat and much apprehension regarding the possible events of May 8, the 114th anniversary of the proclamation of the Polish constitution, when disturbances and demonstrations always occur. Tonight there is every indication of trouble. All the ground gained since the disturbance of last January has been lost.

TACOMA'S CHIMNEY.

Highest Concrete Chimney in the World Completed.

Tacoma, May 1.—What is considered by engineers to be one of the greatest feats attempted was the completion of the mammoth concrete chimney at the Tacoma smelter. It is the highest concrete chimney in the world and was built for the purpose of abating the smelter smoke nuisance in the north end.

The height of the chimney is 307½ feet. Inside diameter 18 feet. Foundation 40 square feet, six feet deep.

EMMIGRATION INCREASING.

Twenty-Five Thousand Foreigners to Arrive This Week.

New York, March 1.—On 22 steamships due to arrive at this port this week from Great Britain and the continent is the highest number of emigrants ever scheduled to enter during such a period of time. The horde reaches nearly 25,000. At Ellis Island arrangements have been made for their prompt handling because the detention of any part would at once tax the facilities of the companies.

SECRETARY LOOMIS

Not Afraid of Result of Venezuela Charges.

ROOSEVELT WILL INVESTIGATE

Charges Preferred Against Assistant Secretary Loomis by the Minister of Venezuela Will Probably Be Probed to the Bottom Soon.

New York, May 1.—Assistant Secretary of State Francis B. Loomis, who is in this city on private business, is quoted as saying President Roosevelt will personally investigate the stories circulated regarding his actions while minister to Venezuela. "This whole business is going to be thrashed out by the president in a very short time," he said. "I am assured that the president is not going to wait for the return of Secretary Hay from Europe, but is going right to the bottom of the affair, and I am glad of it. It can't come too soon for me."

"Something will be brought out of the hearing that will show the motive for the attack on me."

RAILROAD SUITS.

Evidence Taken in the Santa Fe Case in Kansas.

Topeka, May 1.—According to testimony in the suit filed today in the supreme court the Santa Fe Railroad Company agreed to pay \$5 a car to the Anthony Wholesale Grocery Company in consideration of which the grocery company put in its own side track.

The agreement for rebates to continue two years or until the company has received sufficient sum to reimburse it for the amount expended on the construction of the sidetrack.

DIED FROM YELLOW FEVER.

Chief Architect Dies at Panama From the Yellow Scourge.

New York, May 1.—A dispatch received here from Panama announces the death there from yellow fever of Chief Architect Johnson, attached to the canal staff. He was formerly employed as architect by the Illinois Central railroad.

His work included the designing of new bridges. Johnson, who was a native of Kentucky, had been on the isthmus since last July.

CASE ARGUED

Nan Patterson Trial Concluded.

GOES TO JURY TODAY

Case of Deliberate Murder or Suicide, No Manslaughter Committed.

ARGUMENT FOR DEFENSE

Court Room Crowded With Spectators and Judge Had to Stop Proceedings to Oust Women Who Were Sitting as Judge and Jury on the Case.

New York, May 1.—"This case is deliberate murder or suicide. There is no manslaughter about it. There should be no compromise verdict. She is either guilty of murder in the first degree or not at all."

With these words Abraham Levy, counsel for Nan Patterson brought to a close this afternoon his five-hour argument for the defense of the former chorus girl, charged with the murder of Caesar Young.

During the long argument, Miss Patterson faced the jury unflinchingly. The court room was crowded, most of those in attendance being women who struggled to get a look at the defendant. The judge was compelled to stop Levy during his argument while the court officers expelled from the room several women who persisted in discussing the case in audible tones to the annoyance of all present.

Levy reviewed all the testimony in detail and declared that not a word had been introduced which showed any purpose on the part of Miss Patterson or her brother-in-law or sister, Mr. and Mrs. J. Morgan Smith, to threaten the life of Caesar Young. The suicide theory was strictly emphasized by Levy, who contended that the powder stains on Young's fingers proved that he shot himself. Levy scouted the idea that the girl was able to make such an assault on a trained athlete like Young.

Assistant District Attorney Rand will close for the people and, possibly the case will go to the jury tomorrow afternoon.

PRESIDENT GETS SKUNKED.

Hunted All Day But Did Not Secure a Single Pelt.

Glenwood Springs, May 1.—The president and members of his party were in the saddle from 8 a. m. to 4:30 p. m. today, returning without a pelt of any kind or even seeing any game. Secretary Loeb reached camp at 2 o'clock and expects to remain tomorrow. The hunters will not occupy the old camp on the east divide creek until tomorrow, as the president desired to await Mr. Loeb's arrival in the present quarters on the west divide, where luck went against the campers when they started out.

COUNTING CHINKS.

Enumeration of Chinese Residents of New York Commenced.

New York, May 1.—A census of the Chinatown of this city is being taken by the police. Each precinct commander received orders from Commissioner McAdoo to note every Chinaman in the district and his occupation. However, the order did not cover the quarter known as Chinatown which is a special police district. No attempt will be made to secure the Chinese names, but a close tabulation will be made supposedly in connection with the police crusade against vice among the celestials.

BUILDING BOOM.

Several New Business Blocks to be Erected in Astoria.

The indications are that Astoria will witness one of the greatest building booms this summer, fall and next

spring ever known in the city. Considerable rivalry exists between the property owners in the center of the city and those in the vicinity of the O. R. & N. wharf. Business has been gradually moving eastward, owing to the enterprise displayed by some of the large property owners in that vicinity. The building of the Logan building at a cost of over \$40,000; the new city hall building, \$40,000, and the new hospital building which will cost \$100,000, in addition to a large number of handsome residences, has awakened the merchants who are desirous of getting in the business center of the city.

Now the property owners between Tenth and Fourteenth street are waking up and a number of elegant, modern buildings are under contemplation.

The Astoria Savings bank will erect a three-story building on its property on the corner of Eleventh and Duane to cost about \$50,000. The order of Elks are contemplating building on the lot recently purchased in the rear of the Savings bank property. A. S. Reed and J. N. Griffin have divided up their property and Mr. Reed will put up a three-story building in the rear of the Star theater to cost about \$30,000. J. N. Griffin will put up a three-story building on the lot between the Mansell and Tourne & Staples building, which has already been leased. C. S. Brown will either convert all the store buildings east of the Astoria National bank building to the corner of Eleventh street into one large store, or erect a three-story building on it. The plans will be determined upon when Mrs. Wilkinson returns the first of July. Other large, modern buildings are in contemplation and it is safe to say that nearly \$1,000,000 will be invested in new buildings during the next year.

CHICAGO CONDITION

Teamster's Strike Assumes Serious Proportions.

RIOTING OPEN AND VICIOUS

Trouble Today Caused by the Arrival of 1500 Men from Outside Cities to Take the Place of the Strikers and Union Teamsters' Protest.

Chicago, May 1.—The condition of the teamsters' strike was worse today than at any preceding time. The strikers are in an ugly mood, the rioting more open and vicious, and attacks on non-union men more frequent and daring than any time since the commencement of the trouble. The chief cause of the belligerency on the part of the strikers and their friends is laid to the fact that the Employers' Teamsters' Association today brought 1500 men into the city to take the places of the strikers and 500 more are said to be on the way and will arrive within 12 hours.

These men receive full pay the same as union men and their positions are guaranteed to be permanent. Among them are 500 farmers' boys from surrounding states who volunteered their services and sought the positions as drivers. Tomorrow Winchester rifles will be carried on all the wagons of the Employing Teamsters' Association in open view.

Over 1000 of these weapons were purchased today and during the latter part of the afternoon and a number of wagons went through the streets with rifles lying across the knees of the driver and his assistant. When Mayor Dunne was informed of the fact of the rifles being carried by non-union men he was visibly disturbed and declared the police would not be authorized to allow carrying arms by any one, whether in the Employing Teamsters' Association, or affiliated with the strikers. The chief of police had given no authority to any one to carry arms, he said.

The city council tonight passed resolutions directing the chief of police to enforce that portion of the state's statutes which prohibits carrying rifles in the streets by unauthorized persons. President Shea of the teamsters' union said tonight that if the employers went armed the drivers would do the same. If it is legal for non-union men to arm themselves, it is certainly not illegal for us to do likewise.

THREE CROOKS

Robbed the Till of Hotel Portland.

ALL THREE CAPTURED

Most Notorious Crook and Bank Robbers Captured After a Hard Chase.

IDENTIFIED BY THE POLICE

Two of the Crooks Were Captured in Full Evening Dress in the Height of Fashion, With Magnificent Set of Pickpocket Tools on Their Persons.

Portland, May 1.—Three crooks, one of whom at least, of international reputation, were captured today after having robbed the till of the rathskeller in the hotel Portland of \$135. Two of the fellows were caught by Night Watchman Nicholson of the hotel on the fourth floor of the hotel after a lively chase. The third was captured today in the Ainsworth National bank. At the jail the men gave the names of C. H. Hanlon, J. S. Stafford and William Kane. The hotel recovered the money stolen.

Kane's true name is said by the police to be Wm. Barrett, an alleged notorious bank robber and pickpocket. The chief of police in the large cities were immediately informed of the capture, and late today requests were telegraphed that he be held were received from Milwaukee. The message stated that he was wanted for bank robbery, and one from Baltimore stated that the chief of police of that city wanted him for assault and robbery. Wm. Barrett has a long criminal record the principle crimes being for the robbery of a bank messenger in Paris, France, of 400,000 francs, for which he served a long term in prison. J. S. Stafford, the police claim to be a criminal known as "Fritzie" Dhein. According to the police Dhein is a celebrated crook and served terms in various prisons for bank robbery, diamond stealing and picking pockets.

The third of the trio, G. H. Hanlon, has not yet been identified, but the police say they believe he is well known. Hanlon and Stafford were caught, clad in full evening dress and wore considerable jewelry. Kane was finely but not conspicuously dressed, in the height of fashion. When searched a magnificent set of tools for picking pockets was found on his person.

Tom Brown Acquitted.

Chehalis, Wash., May 1.—The jury in the case of Tom Brown, 14 years old indicted for fratricide, who has been on trial for murder for the last week, today returned a verdict of not guilty. The jury found the boy an insane person.

Astoria Census.

Six out of the seven census enumerators for Astoria have completed their work and filed their report. G. W. Lounsbury has been confined to his home with sickness and has been unable to complete his district but expects to do so by the 15th. The following is approximately the census so far as reported:

District No. 1	1900
District No. 2	1150
District No. 3	Lounsbury.
District No. 4	1600
District No. 5	1649
District No. 6	1450
District No. 7	1490

Total 9233. There will be about 2000 in Lounsbury's district, bringing the total population up to about 11,500. The county is expected to show a large increase. Seaside will be about 1000; New Astoria about 500, Warrenton and Clatsop about 500, Nehalem valley 500, Clifton, John Day, Westport and Knappa about 700, Walluski, Olney, Youngs River, Lewis and Clark about 1000. The population of the

All women should strive to be beautiful. Beauty rules mankind. Hollister's Rocky Mountain Tea brings red lips, bright eyes and cream-like complexion. 35 cents, Tea or Tablets. At Frank Hart's drug store, county will be about 18,000. It is possible that an additional 500 may be secured in Astoria and that the population of the city may reach 12,500, as predicted by the Astorian last week.

Chance for Windy Willie.

To perpetuate his memory in the minds and hearts of the people of the city which has been his home for half a century, George A. Grund of Kansas City, Mo., has given his entire fortune of more than \$100,000 for the erection of a hotel, which is to be the property of the city. The only conditions are that the hotel shall always bear his name, and that a life-sized portrait of himself shall be placed in the foyer. Work will begin at once.

Here is an opportunity for some charitably inclined man in Astoria to emulate the example of the Kansas City man.

United Workmen.

At the mass meeting of Seaside lodge A. O. U. W. last Saturday night, the question of organizing a local insurance company from members of the order was discussed and a constitution and by-laws submitted. The general impression prevailed that it would not be policy for Seaside lodge to go it alone, but should co-operate with other lodges throughout the state, and to this end, considerable correspondence has been going on and the plan is meeting with general favor. As soon as the plan is perfected, Seaside, as well as their lodges will withdraw from the Oregon jurisdiction, which will break up the grand lodge in this state, or confine it to the Portland lodge. Nothing definite will be decided upon for at least a month.

OIL TANK BURSTS

Several Cars Loaded With Merchandise Burned.

LOSS ESTIMATED AT \$50,000

A Leak in a Tank Containing Naphtha Was Ignited by a Switchman's Lantern, Destroying Cars and Injuring a Number of Railroad Men.

Chicago, May 1.—A leak in a tank car containing 60,000 gallons of naphtha has ignited from a switchman's lantern and the resulting explosion injured two switchmen and caused a fire that destroyed a dozen merchandise cars.

A train containing 25 merchandise cars and one tank car was being switched at the Pennsylvania yards when a switchman discovered the leak. The train was ordered to a side track and the railroad men went closer to the car to examine it. In a moment the huge tank burst and scattered the burning fluid over a dozen cars loaded with merchandise. Several cars and their contents were destroyed. Several others were slightly burned. The loss to the railway company is estimated at \$50,000.

Crowded to the Doors.

Never in the history of Astoria has there been such a crowd as gathered at the Star last evening to witness the magnificent program presented. The doors had to be locked at both performances to keep the overflow out. The principal attraction was the famous Royal Italian band, which has a world-wide reputation. Its music was the grandest ever heard in the city and every selection was received with uproarious applause. Cole and Cole, the wonderful acrobats, delighted the audience by their daring feats and were several times encored. Homes and Mack in their versatile rendition elicited applause, especially Miss Mack in her change from the Chinese act into an Indian. Every number on the program was exceptionally good. In order that everyone may see the wonderful bill at the Star this week the performance will be changed every night.
